

Hello, I am

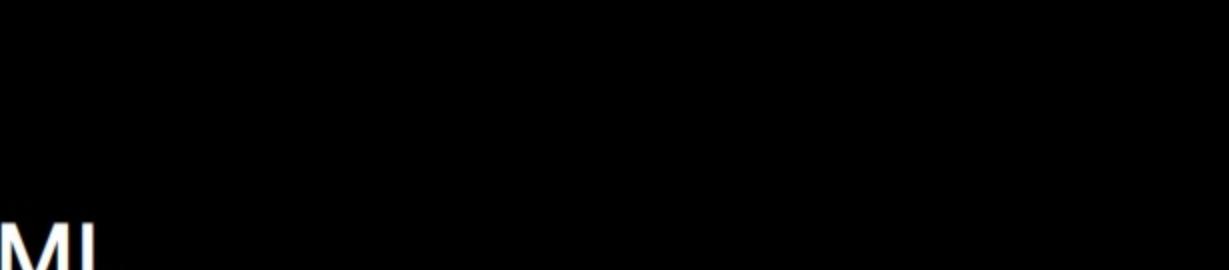

# VLAD LISTGARTEN

FRONTEND DEVELOPER

## ABOUT ME

My priority is writing robust code for production, architecting systems that scale effectively, and collaborating within teams that deliver tangible outcomes. I believe in practical solutions, technical excellence, and shared success.

## HARD SKILLS

HTML

CSS & SCSS

JavaScript

React

Redux Toolkit & RTK Query

TypeScript

Tailwind & BEM

Nest.js & Express

Vue.js

GIT

Webpack & Rollup & Vite

Docker & GitHub Actions

PostgreSQL & Prisma

## SOFT SKILLS

Code review

Mentorship

Project architecture

Cross-team communication

Team leadership

Contributions Languages Skills Awards Portfolio Contacts

Download CV

## WORK EXPERIENCE

2021 - Present

Frontend Developer

Kwork

Provide frontend development services to clients on a contract basis

Frontend Developer

Murano Software

Develop user interfaces using React and TypeScript

2020 - 2021

Campaign Manager

INFUSE media

Manage the implementation, tracking and measurement of marketing demand lead generation campaigns

2020

Master of Engineering

Automobile University

Developed multi-agent systems using probabilistic algorithms to optimize distributed decision-making

2015 - 2020

## LANGUAGES

Russian

100%

English

80%

German

25%

## CONTRIBUTIONS

### WEB DEVELOPMENT

Developed and maintained the company's main website, admin panel, and reporting module

### UI LIB & FRAMEWORK DEVELOPMENT

Designed and developed a custom UI library and in-house framework

### REPOSITORY & BUILD MANAGEMENT

Managed code repositories, updated dependencies, and configured build tools

### CHROME EXTENSION DEVELOPMENT

Developed a extension currently used by clients to automate form filling and streamline workflows

### VSCODE EXTENSION DEVELOPMENT

Built an extension with 120,000+ users to automate commands and track file changes

### CI/CD & WORKFLOW AUTOMATION

Set up CI/CD pipelines, implemented commit validation, and automated workflows

### TELEGRAM BOT & WEBAPP

Developed a Telegram bot and web application using NestJS and React

### PROJECT PLANNING & COORDINATION

Planned tasks, coordinated workflows, and conducted team meetings

### TEAM LEADERSHIP

Led a development team and ensured smooth collaboration

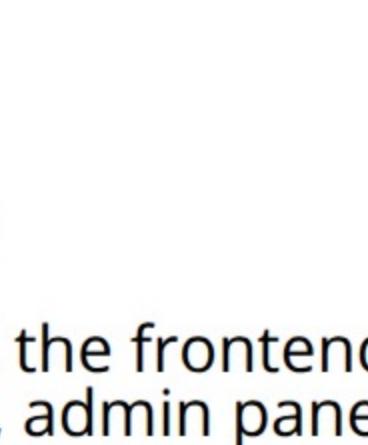

## AWARDS

1st place

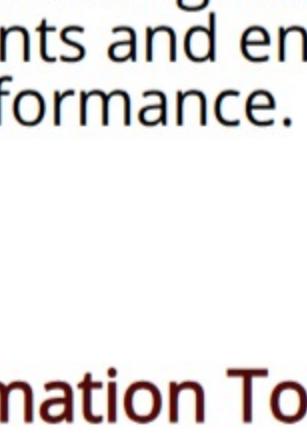

Olympiad in Chemistry

2nd place

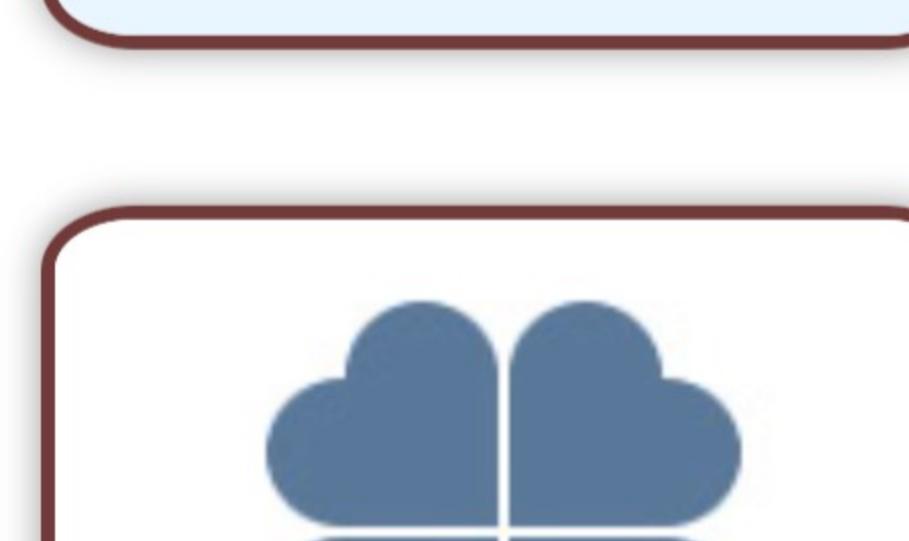

Olympiad in Higher Mathematics

3rd place

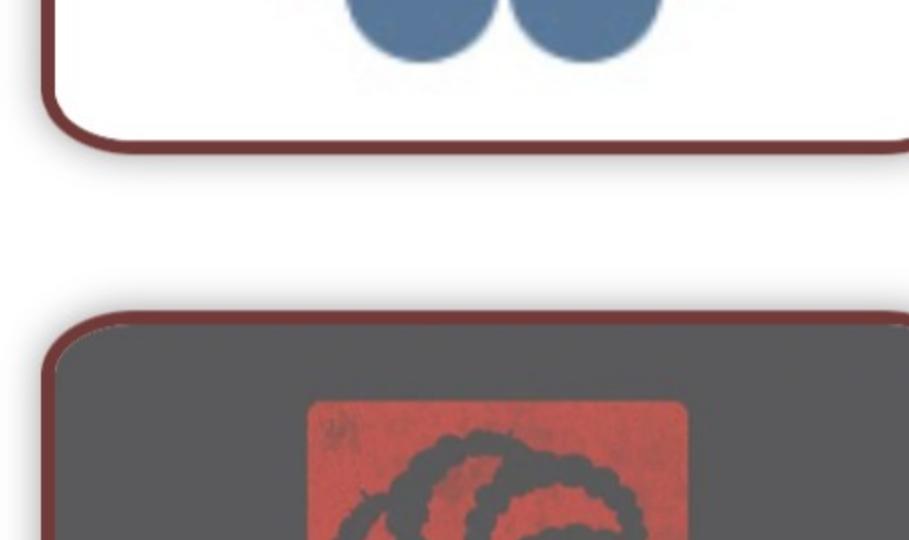

Theory of Mechanisms and Machines

## PORTFOLIO

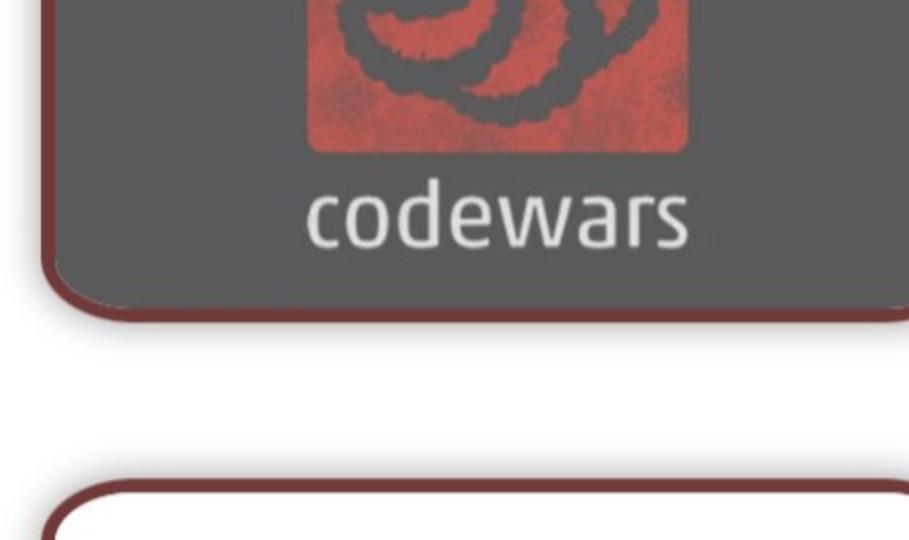

### Appulate

Developed and maintained the frontend for the company's main website, admin panel, and reporting system. Designed intuitive interfaces, improved user experience, and ensured smooth backend integration. Delivered scalable components and enhanced overall platform performance.

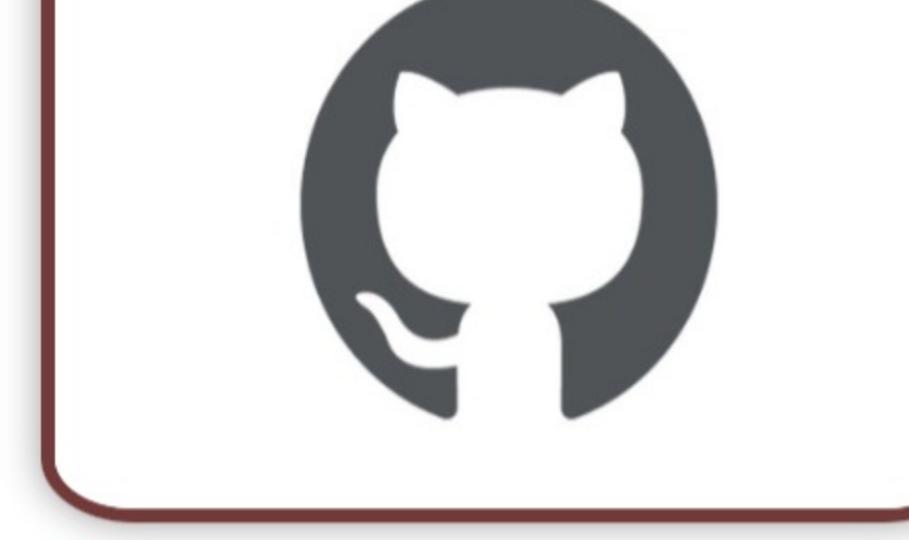

### File Watcher & Automation Tool

Built an open-source tool used by over 120000 users to watch file and folder changes (deletions, creations, renaming) and execute matching command scripts. Continuously maintain the project and resolve issues to ensure reliability.

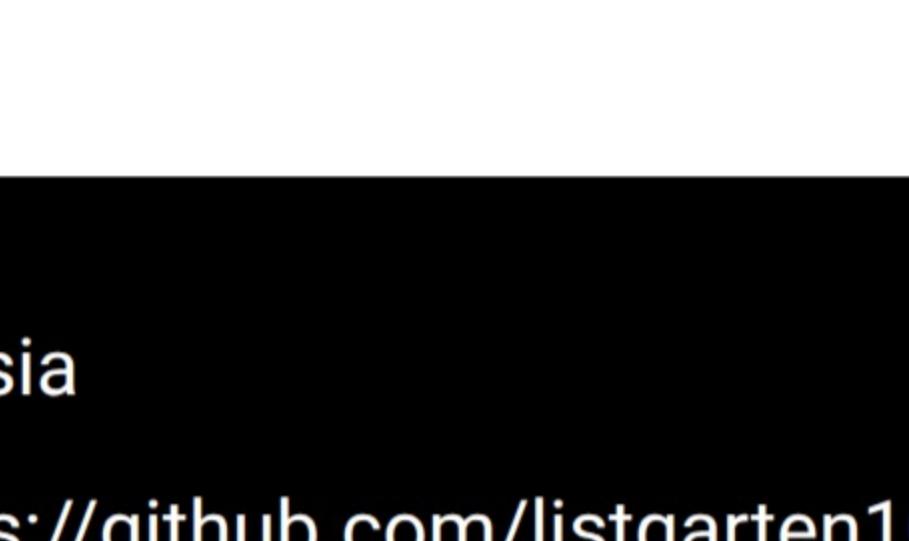

### Appulate Weblink Tool

Developed a browser plugin used to streamline submissions to carrier portals outside Appulate. Automatically fills out questionnaires with data entered or uploaded in the Appulate system, improving efficiency and reducing manual entry errors.

### Profile in Codewars

Occasionally works on Codewars challenges to practice problem-solving, stay familiar with basic algorithmic concepts, and gradually improve coding consistency through small, focused exercises.

### Profile in Github

Includes multiple side projects, open-source contributions, and small utilities that have been developed, maintained, and periodically updated over time to explore new ideas, experiment with technologies, and improve coding practices.
